## EDITORIAL

*Sprawozdania Archeologiczne* is a journal published regularly by the Kraków Branch of the Institute of Archeology and Ethnology of the Polish Academy of Sciences since 1955. For many years, important source studies were published, mainly concerning archaeological discoveries from Central Europe. From 2004 to 2018, the editor of the journal was Sławomir Kadrow. Under his leadership, *Sprawozdania Archeologiczne* began to play an even more important role in the scientific community. The decision to publish materials only in English had a positive impact on the internationalization of the publication. The authors of many articles were researchers from outside Poland. A lot of analytical and cross-sectional studies have found place in the journal. Thanks to this, *Sprawozdania Archeologiczne* have become a known and well-rated brand in the international archaeological society.

This 71<sup>th</sup> issue of the journal is dedicated to Professor Sławomir Kadrow, thanking him for the enormous contribution of work and for managing the editorial team for the last 15 years.
